ANGOSTURA BITTERS

HAVE long enjoyed the highest reputation on the whole of the American continent and the West Indies for their delightful aroma and flavour, as also for their efficacy as a stimulant in exciting the appetite. They were first introduced generally to the European public at the Great International Exhibition, 1862, where they obtained the award from the Jury of "Honourable Mention for Goodness of quality." In India they are highly esteemed for the properties remarked in America, and for their valuable tonic power in all diseases arising from weakness of the digestive organs.

TWENTY-THIRD REPORT.

THE Directors beg to submit to the Proprietors and Shareholders the accounts of the Bank for the half-year ended 30th June.

Seldom perhaps has greater distrust prevailed than during that period. Mercantile failures, the depreciation of Mill Property caused by the liquidation of several Spinning and Weaving Companies, and the heavy losses in Cotton and other produce here and on the coast from the storm in the end of May have all combined to lessen confidence, and thereby restrict business.

The Cotton crop, too, proved to be a late and short one, and the profits at the branches have been materially affected: indeed, since the establishment of the Bank they have never been so small.

The Directors regret that the delays incidental to official liquidation, and legal difficulties, have prevented them from realising all the securities held on account of the debts due by the estates of Messrs. W. Nicol and Co. and Nursey Kessowjee and Co. and others. They believe that the estimates formed last January last were then accurate, but the Directors have most carefully revised the securities on hand, and in order to make provision for these claims they have transferred to Bad and Doubtful Debt Account Rs. 1,75,800 on account of the debts due by Messrs. W. Nicol & Co. and others; and Rs. 2,16,000 on account of the debts due by Messrs. Nursey Kessowjee and Co. and others. As at present advised, the Directors believe they will be able satisfactorily to dispose of any question which may arise on the adjustment of the Bank's claims against Messrs. W. Nicol and Co.'s estate; and they consider the provision made with respect to the above claims ample.

By the failure of Messrs. Finlay, Scott and Co. the Bank has sustained a loss of Rs. 56,703-1-10, for which provision has been made in full.

Thus bad debts have been written off to the extent of Rs. 4,50,805-1-10, and these adjustments have rendered necessary an appropriation of Rs. 3,10,800 from Profit and Loss Account. That amount has been credited to Bad and Doubtful Debt Account, which now shows a balance of Rs. 58-12-5. The Directors are satisfied that all other past-due bills will be paid in full.

The Profit and Loss Account shows a net gain of Rs. 7,34,105-15-1, including the balance of Rs. 85,651-12-5 brought from the half-year ended 31st December last.

The Directors have declared a dividend at the rate of 8 per cent. per annum, which will absorb ..... Rs. 4,00,000 0 0
They have transferred to Bad and Doubtful Debt Account, as already explained ... ,, 3,10,800 0 0
In reduction of cost of premises ..... ,, 10,000 0 0
And have carried forward the balance of ..... ,, 13,305 15 1

Rs. 7,34,105 15 1

The distrust which has prevailed has not been without some advantage to the Bank, and it may be measured by the increase to the current accounts, and by the considerable profits made at Head Office.

By virtue of clause 29 of the Presidency Banks' Act, the Board invited the Honourable Magnus Mowat, Captain Kellock, Mr. James Thorburn, and Mr. Vurjeevundass Madhowdass to join their number. Unfortunately Captain Kellock was immediately afterwards obliged to proceed to England on account of the state of his health, and resigned his seat.

Mr. Forman prior to his departure for Europe, tendered his resignation of his seat at the Board, and of the office of President, and the Honourable Magnus Mowat was elected his successor in that office.

Mr. Walter Lang also has retired from the Board.

Messrs. Dinshaw Manockjee Petit and Vurjeevundass Madhowdass retire from the Board on this occasion, and are eligible for re-election.

The Shareholders will have to elect Auditors for the ensuing year, and to fix their remuneration. The present Auditors, being eligible, offer themselves for re-election.

Copy of the Auditors' report is annexed.

By order of the Directors,
M. BALFOUR,
Secretary and Treasurer.

Bombay, 9th July 1879.

AUDITORS' REPORT FOR THE HALF YEAR ENDING 30TH JUNE, 1879.

Bombay, 9th July 1879.

To The Secretary and Treasurer, Bank of Bombay.

Dear Sir,—We have to submit our report relative to the Bank's accounts for the half-year ending 30th June, 1879.

We have carefully examined the several Ledgers of the Bank, and also the returns of the various Branches, and have found them correct.

The Cash Balance held by the Bank at the Head Office on the 30th June last has been counted by us, and found in order.

The Government Securities held by the Bank on account of the Reserve Fund stand on the books at their original cost; the remaining Securities belonging to the Bank have been brought down at rates slightly below the current market values.

The Securities held by the Bank against Loans and Cash Credits, and the Securities deposited for safe custody, agree with their respective Registers.

The Balance Sheet has been carefully checked with the accounts and documents thereto relating, and we consider that it contains the particulars required by the Bye-Laws made under the "Presidency Banks Act of 1876," and is full and fair and correctly shows the true position of the Bank on the date under report.

On several occasions during the past half-year we called at the Bank and went carefully through the accounts of the previous day's transactions, and on each such occasion found the books and vouchers in the most satisfactory order.

We remain, Dear Sir, your obedient Servants,

(Sd.) H. R. CORMACK,
" EDULJEE NUSSERWANJEE SETTNA,
Auditors.

TREACHER & CO.'S CONCENTRATED COMPOUND FLUID EXTRACT OF SARSAPARILLA.

PREPARED with the very best materials and with the greatest care, so as to obtain the full medicinal properties of each of the articles of which it is composed.

This preparation of the *finest Jamaica root* is decidedly preferable to any other form in which Sarsaparilla can be administered, on account of its portability and superior efficacy.

It contains the whole active and medicinal properties of the root in the highest state of concentration, combined with the ingredients of the compound decoction ordered in the British Pharmacopœia, the beneficial effects of which, as an alterative and restorative, have been universally admitted and established by the sanction and recommendation of the most eminent practitioners of the present day.

BASS'S FIRST QUALITY INDIA PALE ALE,

BOTTLED BY M. B FOSTER & SONS,
CHIEF AGENTS TO MESSRS. BASS & Co.

MESSRS. FOSTER'S account is the largest on Bass & Co.'s books, and since the establishment of their Business in 1829, their shipments abroad have extended to every leading market of the globe. Their premises for Home and Export trade far exceed in magnitude and perfection those of any other bottler in the world, and afford employment for upwards of three hundred hands.

As a special mark of Messrs. Bass & Co.'s confidence, it may be noted that Messrs. FOSTER are the only bottlers of the Beer who are authorised to place their own labels on the bottles, a fact which in itself is significant, and will be appreciated by all who value the certainty of obtaining a *genuine, pure*, and *unadulterated* article.

The new season's bottling is now forward in magnificent condition, and fully sustains the prestige that half a century's experience has gained for this favourite Beer.

COMMERCIAL INTELLIGENCE.

THURSDAY EVENING, 10TH JULY, 1879.

THE general position of our various markets has remained unaltered throughout the week. Cotton is dull and somewhat lower in price with nothing doing for export, and the same may be said of Seeds. Piece Goods are in poor demand and tending downwards; Metals dull and difficult of sale. Freights are slack at 20s. per ton for Liverpool both by steam and sail. Money is easier; Government Securities firm; shares depressed; Sterling Exchange steady, although 3/16d. per Rupee lower since last Mail. Extreme quietness is thus the prevailing feature at the moment, and to all present appearance seems likely to continue so for some months to come, although prospects for the more distant future are still encouraging. Locally the rains during the week have been very light, but from upcountry the weather is still reported all that could be desired for the growing crops, which are everywhere in a flourishing condition; in fact, we have not heard an unfavourable report from any quarter, with the one exception of portions of the Deccan where a return of the plague of rats is feared.

MONEY.—Increasing ease still characterises the market. The last published statement of the Bank of Bombay for the week ending on the 5th instant showed a further increase in the Cash Balance of nearly 13 lacs, due almost entirely to a falling off in Loans and Discounts, and although perhaps not generally expected after last week's movement, it produced no surprise when another reduction of 1 per cent. all round was made in the Bank's rates of int rest and discount on Wednesday last. This brings the minimum down to 5 per cent. for fixed loans secured by Government Paper, but in the open Market the rate is fully 1 per cent. lower, with every appearance of becoming easier still. So far in fact as local influences are concerned there seems nothing to prevent money going to 2 per cent. before the the end of the monsoon, as there is no prospect of any activity in trade during the interval, and all speculative tendencies seem to be dead for the time being.

EXCHANGE.—The settled appearance which the market presented a week ago, was disturbed the day following the departure of last Mail by a sharp reaction in the value of Silver, consequent on the news of the completion of the Sutro tunnel draining the Comstock Silver Mine in Nevada. Although no one could suppose that the immediate supply of the metal would be in any way increased thereby, and even an appreciable effect on the ultimate supply of the world is by no means a certainty, the London quotation for Bar Silver dropped from 52½d. to 52d., and on Saturday Exchange here opened on the basis of 1s. 8d. for demand Bank drafts a decline of ½d. from the previous day. On Monday a further fall of ½d. took place, and on Tuesday the lowest point of the market was reached, 1s. 7 13-16d. for demand Bank Bills being the general quotation for a time. On Wednesday, however, a firmer feeling was apparent, and to-day, the fact of the 30 lacs of Council drafts having brought an average of 1s. 7 27-32d. per Rupee in London yesterday, has confirmed the firmer tendency, and an advance of 1-16d. has taken place, closing quotations being:—Bank Bills on demand 1s. 7 15 16d.; 6 months' 1s. 8 3-16d.; Credits, 3 months' sight 1s. 8d.; 6 months' 1s. 8 1-16d.; Documents, 3 months' 1s. 8 2-16d.; 6 months' 1s. 8¼d. per Rupee.

At this level as we have already remarked the market wears a decidedly steady aspect, with if anything a hardening tendency, and we see no reason to alter the opinion we expressed some time ago—viz., that during the slack season indications point to 1s. 8d. per Rupee as about the probable average rate for demand Bank Bills. We shall doubtless have numerous movements both above and below that figure, but the position, we think, warrants at least that value for the Rupee, while we do not see the promise of sufficient activity in trade to maintain a much higher level yet a while.

GOLD is quoted to-day at Rs. 19-1-6 per tola, but here is nothing doing for export.

On Calcutta the rate of Exchange for demand drafts is 1-16 to ¼ per cent. premium, 60 days' sight 13-16 per cent. discount. On China the quotation for 60 days' sight Mercantile Bills is Rs. 221 per 100 dollars. From Hong Kong the last quotation by wire for 6 months' sight Bank Bills on London is 3-, 9¼d. per dollar and from Shanghai 5s. 2d. per tael for 4 months' sight.

GOVERNMENT SECURITIES.—The relapse in Exchange induced a very dull feeling in the market for Government Paper, and rates dropped about ¼ per cent. The depression, however, was only t mporary, and for the past three days a fairly firm feeling has been apparent, prices having recovered about ¼ per cent. of the previous decline. We now quote:—Fours, Rs. 93½; Four-and-a-half, Rs. 99⅝ to ¾.

SHARES.—As a general rule a very dull state of affairs continues, and neither for investment nor speculation has there been any business of importance doing during the week. Bank of Bombay shares have been perhaps the only exception, a rise of 2½ per cent. having taken place, to-day's value being Rs. 685. Other Banks are unchanged, Agra at Rs. 128, National Rs. 110 per share. In *Land* Companies we have only to notice a decline of Rs. 5 in Colaba and an advance of Rs. 1 in *Freres*, the announcement respecting the Port Trust Bill having had no effect. In Press Companies we notice a rise of Rs. 30 in Apollo and Rs. 10 in Sind and Punjaub, but Bexers are Rs. 7½ and Mofussil Rs. 12½ per share lower. *Spinning and Weaving* Mill shares continue very depressed owing to the unfavourable position of the market for Goods and Yarns. Bombay United has advanced Rs. 20, but with this exception we have to quote a general and important decline. Dhurramsey and Sholapore have fallen Rs. 40, Khatao Mucoonjee Rs. 30, Madras United Rs. 25, Great Eastern, Khandeish, and Mazagon Rs. 20, Oriental Rs. 15, Hindustan, Manockjee Petit, National, and Soonderdass Rs. 10 per share.

PIECE GOODS.—Our report for the week must be to a great extent a mere repetition of the preceding. The market has remained in the same dull and inactive state, the clearances from the bazaar for the week being only estimated at about 1,200 packages of all descriptions, and prices are in a number of instances As. 1 per piece lower. Owing to the limited character of the demand supplies in the hands of anything, or dealers are increasing, rendering them somewhat more anxious to effect sales, but the shipments from Home latterly have been light, and with anything approaching a fair offtake on the reopening of the season, there is no cause to fear an excessive accumulation of stocks. Up-country advices continue encouraging, and so far there seems every reason to anticipate an improved demand in the course of another month or six weeks.

GREY GOODS.—The demand such as it is, runs mainly on 40 inch Shirtings, in which a moderate business has been done at in most instances a decline of As. 1 per piece. For 45 inch the enquiry is not active, but prices are fairly supported. In 50 to 60 inch goods prices are As. 1 to As. 2 per piece lower, supplies being in excess of the demand. In Printers there is very little doing, and prices are purely As. 1 lower. Madapolams are more difficult of sale even at a reduction of As. 1 per piece. For Buff Ends the enquiry is particularly limited. T. Cloths are in poor request, but nominally unchanged in value. Jaconets, Mulls, and Dhoties all meet a very slow demand, and prices, although not quotably lower, are tending downwards. *Bleached Goods* continue to meet a retail demand only, up-country buyers being mostly out of the market. Prices are the turn easier, but we do not change quotations. *Dyed and Printed and Turkey Red Goods* are all dull and difficult of sale, prices being, to a great extent, nominal. *Local* goods do not move off very freely unless at a concession in price, the business of the week being estimated at about 800 packages.

TWIST.—For English Yarns the demand has been very limited throughout, and only a small business has resulted. Prices are unchanged although tending easier. For *Local* made Twist a moderate enquiry prevails, chiefly for Chinn, at a slight decline in price.

METALS.—*Copper* is in poor request, and stocks are comparatively large. Sheathing is quoted Re. 1 per cwt. lower, but other kinds are unchanged. *Yellow Metal* is dull and sales are small, but prices are unaltered. *Iron* has not been largely dealt in during the week, but with the exception of a decline of As. 4 per cwt. in Sheets there is no alteration to note in quotations. Stocks on the spot are large of nearly all descriptions.

COALS.—The demand continues very limited, and with the exception of small retail sales from the bandar, there has been next to nothing doing. To arrive the only transactions reported during the week are about 1,000 tons Laird's Welsh Hartley, June-July shipment via Cape, at Rs. 19½, and about 2,000 tons Londonderry West Hartley, July shipment via Cape, at Rs. 20½ per ton alongside.

COTTON.—During the early portion of the week firmer accounts from Liverpool imparted a steadier feeling to the market, and prices for a day or two were quoted Re. 1 to Re. 2 per candy higher. The movement, however, was merely temporary, buyers for export declining to operate, and latterly with dull advices again from Home a state of complete stagnation has set in, and prices have not only lost the previous advance, but close weak at a decline of about Re. 2 per candy from our last Mail's quotations. Even at this reduced level we have considerably above the parity of home prices, and although stocks here are large, the fact of supplies up-country being almost exhausted, renders dealers less anxious to force sales than they would be otherwise. Natives are shipping to Liverpool to a moderate extent, but the majority of holders having secured storage room for the season prefer taking their chance of realising here by sales to the local mills. The transactions of the week only make a total of about 3,000 bales, of which about 2,000 bales have been for local consumption, the remainder for export.

The *Receipts* to date show the following comparison with the two previous seasons:—

	1879.	1878.	1877.
Receipt for the Week	6,562	4 838	3,101
Do. since 1st September..	810,949	938,713	1,107,962

The *Clearances for Sea* since the departure of last Mail have been 5,423 bales, making a total of 544,521 bales since 1st January against 630,761 bales for the same period last year.

Respecting the *New Crop* there is little to add to our last week's report. The accounts from up-country are all favourable, and so far there seems every reason to expect a large and early yield.

The following are to-day's quotations for fully-pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool via Canal without commission:—

	Per Candy.	Per lb. C. & F.
Good Ginned Broach (nominal).....	Rs. 236 =	5 5/16d.
Oomra	„ 228 =	4¾d.
F.G.F. Do.	„ 222 =	5 19 32d.
G.F. Do	„ 215 =	5 7/16d.
Good Dhollera	„ 227 =	5 23/32d.
F.G.F. Do.	„ 221 =	5 9/16d.
G.F. Do.	„ 215 =	5 7/16d.
G.F. Ginned Dharwar	„ 214 =	5 13/32d.
„ Compta	„ 205 =	5 13/64.

SEEDS.—*Linseed* is in very limited demand for exp rt, and the price has receded to Rs. 6-14 per cwt. The ready stock is small and arrivals comparatively insignificant. Of *Rapeseed* there have been no purchases for Export for some time back, and the quotation of Rs. 7 per cwt. is nominal. For *Gingelly* we quote Rs. 44 to Rs. 45 for White and Rs. 41 to Rs. 42 for Red and Brown, per candy.

WE learn by telegram from the Press Commissioner that Major Cavagnari leaves Peshawur for Kabul to-day.

A REFERENCE to our advertising columns will show that the G. I. P. Railway Company, on and after the 15th, purpose making considerable additions and alterations in the train service between Bombay and Jabalpur, Nagpur, and Poona.

AN important decision under the Bombay Municipal Act of 1872 was given by Mr. Justice Green at the High Court yesterday. Mr. Ardasir Bejonjee, a pleader, sued the Municipal Corporation to recover Rs. 1,104, the amount of compensation agreed by the Municipality to be paid to him for a piece of his land at Grant Road taken up for street improvement. Subsequently to the making of the alleged contract, the Municipal Commissioner refused to pay the compensation, on the ground that plaintiff was a mere lessee, not the owner of the land. It was admitted that compensation had been offered as alleged, but defendants stated that the offer was not accepted by the plaintiff, and that a subordinate, who made it, overlooked the fact that the plaintiff was a mere lessee. Defendants were willing to pay the amount agreed upon, on condition of being discharged of all liability in respect of the piece of land by the plaintiff as the lessee as well as by the real owner of the land. The learned judge was of opinion that, from the beginning, the defendants knew that the plaintiff's interest was only leasehold, and that it did not become them now to say that what they intended to purchase was absolute interest in the property. Their contention that they could only purchase land out and out was held to be unsustainable; and his Lordship thought they appeared to be under a misapprehension as to their powers to take up land for street improvements. They could take up land under an agreement or under the provisions of the Land Acquisition Act; and if they did not avail themselves of the latter procedure, they could be treated either as trespassers or holders under an agreement. The plaintiff, having acquiesced in the position taken up by the defendants, was entitled only to compensation; and his Lordship gave a decree for him for the full amount, with interest and costs of the suit.

IT is officially notified that His Excellency the Governor in Council is pleased to appoint the following gentlemen to be trustees of the Port of Bombay from the 13th July:—Colonel W. A. Baker, R.E., Chairman, G. A. Barnett, Esq., Captain G. O'B. Carew, Colonel H. F. Hancock, R.E., F. E. Jacomb, Esq., C.S., Captain J. E. Kelluck, G. A. Kidgridge, Esq., F. Mathew, Esq. The Honourable Mr. Muncherjee Sorabjee Framjee Patel, Esq., Jairaz Peerbhoy, Esq., A. C. Trevor, Esq., C. S.

THE following notification has been made by the Municipal Commissioner to the Chief Secretary to Government:—I have the honour to inform you that at the election held on the 30th ultimo in this office for Ward No. 1 (Fort, Colaba and Esplanade) Mr. Heerjee Ardasir Dadysett was duly elected a member of the Municipal Corporation by a majority of votes, the numbers being Mr. Heerjee Ardasir Dadysett, 180 votes; Mr. Nowrojee Manockjee Wadia, 97.

A LARGE quantity of the cargo of the s. s. Thessaly has been saved with the assistance of the Indian Government steamer Dagmar and brought to Aden, and it is hoped the greater quantity of the cargo may eventually be saved.

MR. JUSTICE BAYLEY yesterday disposed of a suit for dissolution of marriage brought by Ellen Henrietta Crage against her husband William Crage, a Local Funds engineer in charge of the water works now being built under the Collector of Ratnagiri. The grounds alleged in the petition were cruelty, desertion, and adultery. The charges were clearly proved; the respondent's counsel not even cross-examining the witnesses called for the petitioner. At the close of the case, his Lodship made a decree *nisi* for dissolution of marriage: the respondent to pay the petitioner's costs of the petition and of the hearing of the suit. The petitioner is to have the custody of the minor children.

THE Commander-in-Chief of the Bombay Army (General Warre) paid a visit on Wednesday to the Small Arms Ammunition Factory at Kirkee and inspected the numerous processes which belong to the manufacture of a complete cartridge—both for the Martini-Henry and Snider rifles. His Excellency also selected 20 rounds of each kind, and adjourned to the Proof House, where he saw them fired from rifles fixed in rests at targets 500 yards distant. He expressed himself greatly pleased with the admirable condition of all the machinery and the evident efficiency of the working, for which credit is mainly due to Mr. George Peaker, Chief Engineer of the Factory.

WE regret much to learn that cholera is on the increase at Murree among the European residents; and Dr. Calthrop, from Gujranwalla' has been ordered there to aid the Civil Surgeon.

THE Allahabad paper says:—Captain Collen, the Secretary to the Army Commission shortly to assemble at Simla, has gone down to Calcutta to confer with the President, Sir Ashley Eden.

THE "Poona Rat Commission" consists of Mr. Robertson, President; Messrs. Moore, Clarke, Lumsdaine, Beattie, and Cooke, members.

THE following figures from Messrs. Thos. Watson and Company's Circular are suggestive. Exports of tea during the spring, to beginning of June in each year:

1877	chests	24,719
1878	,,	27,089
1879	,,	19,635

A POONA paper says:—Several of the dacoits who took part in the dacoities near Panchgunny have been apprehended. The authorities at Satara are making searching inquiries as to the names of those who have left their villages to take part in the dacoities. Government have issued a proclamation for the apprehension of dacoits supposed to be concealed in the Ratnagiri district and in the Sahyadri Hills, offering rewards to those who capture them. To Mahar captors the reward named is Rs. 75 for every dacoit arrested, while to others it is Rs. 50. For the capture of armed dacoits the reward offered is Rs. 100 for each person captured.

THE *Pioneer* thinks Government are not taking action at all too soon in the matter of providing means of education for poor Europeans and Eurasians. Our contemporary says:—"Certainly it has been talked of long enough. As far back as Lord Canning's time it was already the subject of viceregal minutes. One of these declared that the class referred to would become a glaring reproach to Government if prompt and vigorous measures were not taken for dealing with it. The course of events has justified this warning. It has been estimated that nearly 12,000 children of European or mixed parentage are growing up in India at this moment without any education whatever."

THE *Madras Times* "chaffs" the local Municipality as follows:—It is said that Mr. Burrows the President of the Madras Municipality, is in treaty with Mr. Wilson for the purchase of his Circus, which, it is intended, shall be shifted from park to park in the city for the amusement of the taxpayers. The standing committee, fortified by the strangely inconsistent vote of the Commissioners at the meeting held on the 30th ultimo, feel that they can play "ducks and drakes" with the taxpayers' money, none daring to call them to account. One or two faintly protesting members of the standing committee had their scruples overcome by this remark, 'You surely can't object after the argument of Mr. Nicholas in the Commissioners' meeting, that we ought to purchase toys to amuse the people.' This was irresistible, and, on the principle on which the electric light was purchased, we may expect shortly to hear that Wilson's Circus has become the property of the Municipality. We understand the purchase will be de ended on the ground that the tent is worth a good many rupees, and the Municipality has long wanted a large marquee for the annual People's Fair. This argument, we have no doubt, will be found convincing by all concerned."

THE Madras troops and police sent after the Rampa rioters have had a very unpleasant time of it, judging from the following:—"Within the last few weeks the four Companies of the left wing 39th Regiment, which in March last were sent to Rumpa, have lately returned to Madras. Two of these companies which were employed in the interior of the hill country under Captain V. L. Mathias have suffered severely from fever, and were at last reduced to only a few effectives. As soon as the rain commenced, fever of a worse form showed itself, many of the men being prostrated by it, others were seized with sickness which nothing appeared to allay. In many cases quinine seemed of little avail. The characteristics of the fever were very marked in all. The police have also suffered greatly from fever, some at the out-stations having died. Several officers have been sent away ill, one of the first being Major Morris, Superintendent of Police. We also hear that Captain Mathias has been very ill with Rumpa fever since his return to Madras."

THE Maharaja of Kashmir has issued the following proclamation from Srinagar:—"Be it known to all that, although the accomplishment of every undertaking depends upon the aid and kindness of God, still it is the duty of man to use every means in his power towards the completion of the same. Since the present calamity befel this fertile country, we have from time to time tried different expedients to mitigate the distress of the people, and have adopted prompt measures for the relief of our subjects. In order to make amends for the past, we have spent large sums of money on the relief of famine, and granted remissions of revenue to the people—a fact too well known to require proof. Inasmuch as I have now come to this country to personally organize measures for their relief and welfare, and attend to their complaints and grievances. I hereby notify that, considering the deplorable condition of the people, which I am deeply grieved to witness, I have reduced the price of rice from Rs. 3 to Rs. 2 per kharwar; and also have issued orders that the grain imported from the Punjab, which has cost the State from Rs. 10 to Rs. 12 per maund, be sold at the rate of Rs. 11 per kharwar; and that the Kashmir wheat, which was formerly sold at different prices, be now sold at a uniform rate of Rs. 9 per kharwar. At the same time I have also removed the restriction placed upon the export of corn from the city to its suburbs; that is to say, everybody is now at liberty to take grain wherever he chooses."

THE *Pioneer*:—Reuter's telegram about General Lazareff requires a good deal of explanation. To say that General Lazareff has diverted the course of the river Attrek, will convey as much impression to most minds perhaps, as the rumour that Mr. Gladstone had been unable to set the Thames on fire. Reuter's advices from Central Asia, however, are of some consequence, as they show what the Russians are doing on the way to Merv, and indicate the progress made by the expedition under General Lazareff, who a month or two ago started from the Caspian in that direction. The region lying to the east of the Caspian, between the Balkan hills to the north and the Attrek river to the south, a slip of land about 100 miles broad, is now a desert. The Russians have found it even more impracticable than Kachi—the province between Scinde and the Bolan Pass—has been to us. The difficulties of this desert must be overcome before the Russians can have any chance of reaching Merv. Yet this region, Dehistan as it is called, was once flourishing. The ruins of ancient cities have been found; the cities of the Ishac, the royal clan of the Parthians. Mazduran, or Mesterian, as the Russians spell the word, is one of the chief of these ruins; and Mazduran, which is about 40 or 50 miles north of the Attrek, was once connected with that river by a large irrigation canal. The canal was explored by the Russian Colonel Stebnitzky so long back as 1872, and the Russians have often thought of re-opening it. They believe that by so doing they might restore the land to its ancient fertility, and thus improve their prospects of eventually reaching Merv. Not long ago the affair was discussed at a meeting of the Royal Geographical Society, and the general impression seemed to be that the Russians would find themselves mistaken.

GENERAL LOCH, Political Resident Aden, writing under date July 2, says:—The epigastric amongst the horses and the rinderpest amongst the horned cattle of the settlement is disappearing. There has been one suspicious case amongst the private horses in Aden, but it is not satisfactorily proved that the horse died from the Loodiana fever. Two deaths have occurred amongst the horses of the Aden troops, some of those suffering from the disease have recovered, and no fresh cases have occurred during the past week. Four cows and five calves died during the past week in the town of Aden and one cow at Point. No fresh cases have occurred, only ten now sick in Town and Maala, and some at Steamer Point.

THE International Telegraphic Conference is said to have done little else so far, but discuss the subject of the "word rate." It is understood, however, that before the Conference closes Mr. Pender will bring before it the question of telegraphic press rates, and will propose a system of quarter rates for all foreign press messages. The adoption or rejection of this proposal, however, will rest with the delegates of the various Governments represented at the Conference, for the telegraphic companies have only a consultative voice, and are not entitled to vote. At a banquet given to the foreign delegates at Freemasons' Tavern on Tuesday night, Mr. Pender, who presided, spoke on the subject of press rates at some length, and strongly advocated a general quarter rate—which is already adopted on the Atlantic systems. It would, he said, be a great boon to the press, and a still greater boon to the public, while he believed it would not involve any loss to the telegraphs.

BOTH the late and the present Premiers have lately been before the public under somewhat novel circumstances. A few days ago Mr. Gladstone attended the annual dinner of the Savage Club, an association of actors, artists, musicians, and literary men which bears a somewhat "Bohemian" reputation. The ex-Premier, however, seemed very much at home, and when he rose to respond to the toast of "literature" had a most enthusiastic reception, although the politics of the assembly were very varied, and last year the Club paid great honour to Colonel Valentine Baker and Capt. Burnaby. The Savages appeared to enjoy Mr. Gladstone's speech, and they seem to have applauded him uproariously. Several distinguished foreigners were present, among them M. Got and M. Edmond About, who both spoke in French. Sir Julius Benedict, when called upon to reply to the toast of "music," said he wished he could answer with a solo on the pianoforte. He then proceeded to make a brief speech, but the chairman, Lord Dunraven insisted on having the solo also, upon which Sir Julius sat down to the piano and played a magnificent fantasia. While Mr. Gladstone has been associating with actors and dramatists, Lord Beacon-field has come forward as a dramatic author in his own person. A tragedy called "Count Alarcos," written by Benjamin Disraeli some 40 years ago, has seen the light at an afternoon performance at the Crystal Palace, "with the distinguished author's special sanction." The verdict of the critics is that the piece was not worth reproducing, and the *Daily Telegraph* is very angry with the "thoughtless admiration of injudicious admirers" which led Lord Beaconsfield to give his permission for its representation.

THE *London Gazette* announces that the Queen has been graciously pleased to confer the decoration of the Imperial Order of the Crown of India on Mary, Baroness Napier of Magdala; Frances Elizabeth, Lady Cunynghame (commonly called the Hon. Lady Cunynghame), and Susanna Maria, Dowager Lady Pottinger.

AT a special meeting of the City of London Liberal Registration Association it was unanimously resolved, on the motion of Sir John Lubbock, Bart., M.P., seconded by Mr. James Spicer, J. P. "That this Association desires to place on record its deep sense of the eminent services of the late Baron Lionel de Rothschild in the cause of religious liberty; and to offer its sincere tribute of esteem and respect to the memory of the member who, as a consistent reformer, faithfully and independently for the long period of twenty-seven years, represented the vast and varied interests of the citizens of London in Parliament; and who, during thirty-two years, has been a liberal supporter of this association, and of the party with whose cause it is identified. That this association would also desire to offer the expression of its respectful sympathy with Baron Rothschild's family in their great bereavement, and that a copy of this resolution, signed by the president and secretary, be sent to Sir N. M. De Rothschild, Bart., M. P."

THE sittings of the International Literary Congress have come to end. Before dispersing, however, the members, to the number of over 70, were, on the invitation of Mr. Charles E. Flower, Mayor of Stratford-upon-Avon, entertained at a banquet in the Town Hall of that town. The party afterwards inspected Shakespeare's birthplace and the Museum, proceeding thence to the Shakespeare Memorial buildings, where several addresses on the genius of Shakespeare, and in support of the memorial, were delivered from the stage of the Memorial Theatre. A French poem was recited, and congratulations offered from all eminent seats of learning on the Continent, the party then proceeding to the church to inspect the poet's tomb and monument.

THE reports of the board of visitors appointed for the year 1878 to inspect the Royal Military Academies at Woolwich and Sandhurst have been issued. General Fitzmayer, whose opinions, it is stated, are concurred in by General Lord Airey, states that, in attaching his signature to the report he does so agreeing that, so long as the system which now exists at our military institutions has to be carried out, they are satisfactory, but the word "discipline" in such a system is to his mind entirely out of place, such discipline not to be used. It implies restraint of some kind to those subjected to it, either for the good of the country or the individual, or for both combined. He can find little or no restraint of any kind at the institutions mentioned. Indulgence seems to be the keystone to the whole structure, and credit is taken because offences under it are rare, or do not at all occur. He cannot think that the system is a good one, or that the military service of the country, or the characters of the individuals subject to it, are benefited. Young men brought up for the army ought to be educated under a sterner and more Spartan rule. With three months or more of holidays during the year it would not be too much if the remaining eight or nine were devoted to hard exercise at manly games and to hard work at their different studies. Instead of this (at Woolwich especially) they are indulged in balls and concerts, billiards and smoking-rooms, all of which may be harmless in later life, but which it should be no part of a public military instruction to encourage or foster in any way. Not only is this the case, but even in their rooms, which should be dormitories and nothing more, luxuries and comforts hardly too much for school girls would seem to be thought commendable; and there are many of them furnished in a manner which ought not to be permitted in an institution in which simplicity in every respect ought to be the ruling principle. The general adds:—"I have seen on one of my visits to Woolwich such articles as pint bottles of claret before cadets at dinner. It is true it was stated to have been on 'the recommendation of the doctor;' but what are we all coming to if young men from sixteen to eighteen are to be thus medically treated? Surely youths of the age mentioned who are in such a condition as to require pints of claret to keep up their stamina have made a mistake in attempting to enter the military profession. In conclusion, I hope the remarks I have deemed it my duty to make will not be considered as intended to disparage or reflect upon the authorities at our military institutions of which I am a visitor. I consider, on the contrary, that they are worthy of all praise. It is the system, and only the system, I deem to be wrong and injurious."

THE KENNEDY SEA FACE RIDE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Riding this morning I was disappointed to find the "Kennedy Sea Face Ride" still closed, although it is as dry and hard as if we had had no rain. Why the authorities persistently bar up this side, whether wet or fine, from 15th June to 15th September, I cannot say, but it seems to me absurd to keep the ride closed unless it is too heavy for riding.

If the Executive Engineer were a riding man, depending solely upon his morning gallop to keep him in good health, I feel sure we should occasionally have the ride open during the rains. V. B. V.

A CONTRADICTION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—"Torpedo's" letter published in your issue of the 10th instant, has just now been brought to my notice. In that he says, "No notice of the meeting seems to have been sent to the National Rifle Association, which has published its annual report without taking any notice of its healthy child in the 'Far East.'" With reference thereto, I beg to state that a complete report was sent to the National Rifle Association, and it is published in the Report of that Association for 1878. His other remarks do not call for notice. He is evidently not a member of the W. I. R. A., or he would know more of the subject on which he wrote. CELER ET AUDEX.

THE MANUFACTURE OF COKE AT COLABA.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Happening unfortunately to live near the Government Gun Carriage Factory in Colaba, I wish to enquire if nothing can be done to prevent Government from manufacturing coke on their premises. The stench arising from the process is sickening, so much so that one might as well live in close proximity to a gas-work. The sickness of a number of my acquaintances and neighbours is the consequence; and as it is only within the last few days that the manufactory has commenced, on, I believe, the plea of economy, I should very much like to be informed if people who rent houses in the vicinity are to have their healths injured without any redress. Surely our paternal Government cannot be aware of the annoyance and wrong they are causing. A SUFFERER.

THE *Indian Mirror* regrets the death of a great native sportsman, the Zemindar of Maldah, who was seized with cholera while returning from the Hardwar Fair. The *Mirror* chronicles a number of the Baboo Shikar feats, amongst which is the following:—"In March 1875, while hunting in the Kadubona jungle near the confluence of the Panarbhabe, and Mahananda, a large tiger sprang with a full bound to the height of nearly 12 feet. All the elephants, including the one on which Doman Babu was mounted, shrank with fear, and shook their huge bodies. But this untowards event was nothing to the fluency of large quantity, for talking, thirsty work. Mr. B.—Perhaps it may be, but *I only supplied two pints of beer during the whole fortnight.*

MUNICIPAL ASSESSMENT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The ratepayers of Bombay are certainly under very great obligation to you for drawing the attention of the public to the question of unfair and unequal assessment made by the Municipality.

It is a well-known fact that a very great number of properties are under-assessed, and that these cases of under-assessments are not brought to light because it is not the interest of the owners of these under-assessed properties to do so.

If several chawls and large buildings in Wards Nos. 2 and 4, such as in the Memon Wada Street, Mandvi Bunder, Shaik Memon Street, Shaik Abdul Rahiman Street, and properties surrounding the Mombadev Tank are carefully inspected by the Municipal Commissioner himself, and the rents which they actually yield be compared with their assessed value, he will no doubt find out that not only thousands but lakhs of rupees are annually lost to the Municipality by such under-assessments. A RATEPAYER.

RELIGIOUS CONTROVERSIES.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I recollect reading somewhere that the King of Saxony prohibited the ministers of the different persuasions within his dominions from introducing into their sermons or religious controversies offensive epithets against other Christian communities. Such a restriction, if enforced within this city, would tend considerably to enhance the social and moral existence, which forms the basis of the Christian religion. Pamphlets and epistolary warfare neither promotes nor prevents reconciliation; but, on the contrary, leads to animosities and recrimination, and eventually favours libertinism, diversity of religion, and heresies.

Bishop Meurin, however, holds contrary views; as this is the second time he has appeared in public, formerly in epistles, and now in a pamphlet, as the vindicator of the religion he professes. The subject of his pamphlet, "Purity of the Catholic Faith," is uncalled for, as it does not treat on the real question at issue. The report of the proceedings of the S. P. G. meeting stated that the Ahmednagar outschoums had been induced to adopt the Roman faith for pecuniary considerations. Instead of confining himself to the truth or falsity of this statement, Bishop Meurin has traversed grounds on which volumes, from abler pens than his, have been written, and in which the different communities are now as much divided in opinion as they were from the commencement. The pamphlet, therefore, thanks to his Lordship, instead of bridging over the gap is likely to widen it. Being myself a Roman Catholic, and having been brought up in this city under the fostering care of the "children of Ignatius," I have had ample experience of the bitter animus invariably maintained and encouraged towards seceders.

It would be well for that denomination if they would inculcate in their doctrine the Mahomedan precept which teaches that prayer carries them only half way to heaven—it is charity in its integrity that conducts them to the empyreon. This want of charity, Abbe Gregoire says, is equivalent to a great heresy, and in this opinion every right-thinking man will agree.

SIMLA NOTES.

(FROM OUR WANDERING CORRESPONDENT.)

SIMLA, JULY 5.

I MAY well commence my notes with "the rain it raineth every day." We are well in the rains, and the day before yesterday there was a fall of no less than five inches. Yesterday there was again a very heavy fall, but I have not heard what the amount was. Mist and cloud are always hanging about, with now and then a burst of lovely sun or moonshine. I do not think I have ever before seen more lovely effects of light and shade. How I wish some of my old artistic friends were here to see them and place them on permanent record. Jupiter Pluvius was kind last night. The rain ceased about 8 o'clock, the sky cleared, and the lady moon came out, making everything as bright as day. I trust it is a propitious omen for the amateur dramatists, whose opening night it was. The two pieces chosen were, A "Wonderful Woman" and "Cups and Saucers."

The first piece was a great success. Mrs. Deane, as the widow, and afterwards Marquise, went through her part with consummate tact and skill. Both she and Captain Deane as the cobbler, repeatedly brought down the house and were enthusiastically called before the curtain at the close of the last act. Captain McNeill, as Marquis, both in dress and acting, was all that could be wished, especially in the second act. Captain Fletcher, as the Vicomte de Mirlefluers, was simply perfection. With his fine figure, good get up, and courteous manners, he was everything a lord chamberlain should be. Mr. Herbert Radclyffe, the printer, was what the ladies call "a perfect duck of a man," and went through his part excellently. Finally, Cecile, the newly emancipated school girl, was performed in a most natural and unaffected manner by a young lady, who, before the end of the season, will, I venture to say, be able to take much more important parts. It is to be hoped there is a pause, the green curtain having fallen amidst a storm of applause, let us look round at the audience. The Viceroy's box is tolerably full, but his Excellency does not appear to be there himself, the most prominent person being his Private Secretary. In the opposite box, you will observe standing up in the middle a fine soldier-like man, with a kindly face, and a beard white in the centre. This is our Commander-in-Chief; the men around him have nothing particular about them to cause the eye to rest on any in particular, but perhaps for this very reason they serve the better to bring out the fine commanding figure of his Excellency. But why are all eyes turned to another box on the left? If you take your binoculars you will see grouped together in the centre and flanked by two ladies, three very expressive faces. On the right is Cavagnari with his half Jewish, half French expression of face, which is rendered more remarkable and never to be forgotten by the spectacles he wears. To the left is Major Anderson, the former political Resident in Cashmere, looking so youthful wi h his slight moustache, which gives him almost the appearance of a white Mongolian. Leaning over between the two is a smiling thorough British face with massive square forehead, who, if one can read his countenance aright, is not only a clever but determined young man. Now I have told who he is and I applied to a bystander, who informed me he was a young Madras civilian up here on special duty. But here comes the Commander-in-Chief to join the party and say some thing kind to the hero of the day who seems much pleased. Then to look around on the ground floor, the house is very respectably filled, but not over-crowded. One recognises in all directions with feminine sympathy the blanched faces, men who have just come from the front, and who seem to be enjoying themselves much. Look, for instance, at that Bengal Lancer, evidently recently arrived; see how he talks, and the pretty girl he has seated himself beside blushes. The old old story! Does not a very short time like this make up for all the hardships of the campaign?

But there goes the bell, and the curtain once more rises, disclosing a snug little drawing-room and a charming widow—Mrs. Muir—who, after warbling sweetly to her little china cup is joined by old General Declah—Colonel Medley. The widow was in charming voice, but Colonel Medley was evidently unwell, and his voice in anything but its usual order—so much so that at one time I heard a spectator address Herr von Solo, the enterprising proprietor of Benmore, much to the disgust of those around him. "I say, Gold-tain, what sort of a voice do you call the Colonel's to-night? Isn't it a muzzy tone?" However, the voice seemed to improve rapidly, and the pleasant little musical sketch was, on the whole, capitally gone through, thus terminating a very pleasant evening, which every one seemed to enjoy.

Our roads and improvements have suffered much from the late heavy rains. There are landslips in all directions. Several houses have come down in the bazaar, and I am afraid several lives have been lost. I hear three natives were killed by a slip near Jutog; and Cumbermere bridge, just below the Club, has been half carried away.

Amongst the "on dits" of the place, I hear that the Commissioner has made arrangements to remove the library from its present position to the upper-storey of Mr. Pelitti's house, and intends to sell the present library. Another is that he wishes to buy the Club estate for public offices, and that the Club should take Mr. Rume's fine house, which will be or is in the market, consequent on the abolition of the Etcetera Department.

The Ball at Government House, which was to have taken place on the 3rd, has been put off in consequence of Lord Lawrence's death, and also that of poor Mr. Whitley Stokes, who died the other day much regretted by all who had the privilege of her acquaintance.

You have already learned that the Bombay Port Trust Bill is to be voted as a matter of form-ity, and only that a new one may immediately afterwards be brought in.

A CLERICAL SCARE.—A certian Padré, returning at night from a visit to the cholera hospital at Lundi Kotal, heard a bullet whistle by his ear, and moves off on the double quick, reporting the circumst nce next morning to the Brigade Office. The same morning the field officer reports that the European sentry near the cholera hospital says that he saw a "blayguard" near the hospital, who did not answer his challenge, so he fired and the varmint bolted.

A CALCUTTA paper states that an engine driver, named Gillespie, was put to the expense of Rs. 137 in having to thrice attend the Ajmere Bench of Magistrates with witnesses, in order to defend a suit for Rs. 100, preferred by one Radha Kishen. When told he must attend a fourth time, even British doggedness gave way, and in despair he solicited as a favour that the case might be decreed against him. It is to be hoped that in the out-of-the-way corners of India, it is possible to have too much law, and an excess of *justice*.

A RANGOON paper says:—We are informed that a wild looking European with nothing on but a Holman's liver pad was seen disporting himself in the Peoples Park recently. Our contemporary naively adds that we have heard of or has escaped from the Lunatic Asylum lately. Possibly the man may have been indignant at the Municipal infringement of the people's rights in the Lakes and merely intended to bathe there; but liver pads, whatever other virtues are claimed for them, were never intended as far as we have heard to supersede bathing drawers."

THE following is published as a veracious report of a recent conversation:—

[*Dramatis Personæ*: Mine Host of the Gubbon Hotel, Bangalore, and a friend.]

Friend.—Well, Mr. B., you have been having a grand time of it lately.

Mr. B.—Indeed! How?

Friend.—Why, in providing for the wants of the members of the recent Missionary Conference—both eating and drinking.

Mr. B.—Ugh! Drinking indeed! I had one hundred and fifty-six in the hotel and in tents, and how much liquor do you think they drank between them in a fortnight? Principally Gold-in-the-Mine, but plenty large quantity, for talking's thirsty work.

Mr. B.—Perhaps it may be, but *I only supplied two pints of beer during the whole fortnight.*

BOMBAY.

THE following is the programme of music to be played by the band of H. M.'s Marine Battalion at the Apollo Bandar this evening (weather permitting):—

March	
Overture	King Stephen ..... Beethoven.
Quadrille	Chaine des Fleurs ..... C. Faust.

Waltz	Doctrinen ..... Strauss.
Galop	Wally ..... Faust.

THE COTTON DEPARTMENT.—A private letter from Bombay informs us (*Deccan Herald*) that the Cotton Department, the employés in which recently suffered a reduction of twenty per cent., is about to be abolished altogether.

SUSPICIOUS CHARACTERS.—Two noted characters, named Doorga Soodin *alias* Shewnarayen Sentul and Dhondoo Luximon, were yesterday sentenced to three months' rigorous imprisonment by Mr. W. Webb, for loitering at Falkland Road, and failing to render a satisfactory account of themselves.

A DISHONEST SERVANT.—Krishna Sisjee, a coachman in the service of Dr. Partridge, was yesterday convicted by Mr. W. Webb of criminal breach of trust in respect of a sum of Rs. 19-8-0, the property of prisoner's master. He was sentenced to six months' rigorous imprisonment.

THE VEHAR LAKE.—The height of water in the Vehar Lake, for the week ending Saturday, 5th July, was 51 feet and 8 tenths; total rainfall up to date 28 inches and 56 cents. In the corresponding week last year it was 50 feet and 9 tenths; total rainfall up to date 39 inches and 84 cents.

SURAT AGRICULTURAL SCHOOL.—Mr. Jehangeer Muncherjee Chichgar, a graduate of the Madras Agricultural College, has been appointed by Government a teacher of the Surat Agricultural School. In consequence of a slight accident Mr. Chichgar will be prevented from taking up the appointment for a few days.

A RACE TROPHY.—A fine desert service of silver plate has just been completed by Messrs. Orr and Sons, of Madras. The case in which the service is packed bear's the following inscription:—"The Governor's Cup, presented by His Excellency Sir Richard Temple, Bart., G.C.S.I., C.I.E. Won by Mr. Macpherson's b.a.h. Ariel. Poona, September 13th. 1877."

ASSAULTS.—A Mahomedan, named Hajee Haroon Mahomed, was yesterday fined Rs. 50 by Mr. Nana Morojee for assaulting Venayek Sudsound.—Another Mahomedan, named Hajee Tar Mahomed, was also yesterday fined Rs. 50 by the same Magistrate for assaulting one Krishna, woman. Rs. 30 of the fine if recovered was ordered to be paid to the injured woman as compensation.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of silver in the Mint on the morning of the 30 h June was Rs. 1,11,19,069 and silver received during the week Rs. 10,44,854. The sum of Rs. 17 00 041 in new coin was paid during the week; the bullion balance was Rs. 1,04,63,881. There is in addition bullion valued at Rs. 4,08,909 belonging to private individuals deposited in the Mint vaults and awaiting assay.

NURSEY KESSOWJEE AS SECRETARY AND TREASURER OF THE C LABA SPINNING AND WEAVING COMPANY.—The summons that was pending against Nursey Kessowjee, secretary and treasurer of the Colaba Spinning and Weaving Company, issued on the 10th January last by the Chief Presidency Magistrate, Mr. C. P. Cooper, on the application of the Registrar of Joint Stock Companies for not making out a balance sheet for the year 1877 and laying the same before a general meeting of the Company, and did not file it with the Registrar of Joint Stock Companies contrary to section 49, Act 10 of 1868, was served on Nursey Kessowjee yesterday, and made returnable on Monday next, the 14th instant.

MORTUARY RETURNS.—The total number of deaths registered during the week ending Tuesday, 8 h July, was 432, being 26 more than in the previous week, 86 less than the total of the week ending 9th July, 1878, and 5 more than the average of the corresponding period in the preceding five years. During the week 262 births were reported in the different districts of the city. The rate of mortality per 1,000 of the population was 33·49. There were 135 deaths from remittent fever, being 2 more than in the previous week and 30 less than in the same period last year. There were 4 deaths from small-pox, the same as reported with the same number in the week previous. The deaths from diseases of the respiratory system, diarrhœa, and dysentry were last week 44, 21, and 37 respectively, as compared with 43, 19, and 23 last year. The following remarks are appended by the Health Officer to his return:—"As there is no allowance made for the increase of population, natural and extraordinary, during recent years, the percentages of mortality are unreliable."

A DECREE FOR DISSOLUTION OF MARRIAGE.

ELLEN HENRIETTA CRAGE VS. WILLIAM CRAGE.

At the High Court yesterday, this case, in which the petitioner sued for a dissolution of marriage on the ground of cruelty, desertion, and adultery on the part of the respondent, was heard before the Hon'ble Mr. Justice Bayley. Mr. Gill and Mr. Pigott appeared for Mr. Turner, appeared for the petitioner; and Mr. Macpherson, instructed by Messrs. Crawford and Beevey, for the respondent, a Local Funds engineer in charge of the water works now being built under the Collector of Ratnagiri.

Mr. Gill read the plaint and the written statement, the substance of which has been already published by us.

Mr. Macpherson said he would raise only one issue as to desertion.

Mr. Gill said he would abandon the charge of desertion.

At the suggestion of the court, Mr. Macpherson raised the following issue:—Whether the plaint ff was entitled to the relief prayed for or any part thereof?

Ellen Henrietta Crage examined by Mr. Gill.—I was married to the respondent in Poona on the 3rd November 1862. (The marriage certificate was shown to witness.) This is my marriage certificate dated 4th November, 1862. The respondent was married to me under the name of Graham, *alias* Gray. I have children living, two girls and four boys. For the last fifteen years I have had cause to complain of respondent's violence. He came to Bombay about the 2nd March last and remained till the 26th. I received the 25th March before I went to my lawyer, Mr. Turner. Two or three nights before that day, I heard somebody talking in the house. Mr. Crage slept in the front room. On the Saturday night I was disturbed by hearing voices in that room. I was disturbed again on the Sunday night. I took a lighted lamp and went into the room. I found a native woman in the same bed with my husband. I spoke to her first in his presence. I said, "Who is that?" She sat up, but did not answer me. There was a stick hanging by the table, and I struck her with it. I asked her what servant brought her. She said, "No servant brought me; the Sahib brought me." She told me in his presence

CURE OF RHEUMATISM AND SCORBUTIC ERUPTION.
The Elms, North Cheam, Surrey, S. 4th March, 1875.
"SIR,—I had been suffering from rheumatism for several years, together with scorbutic eruption of the skin, of a local nature, about the size of the palm of the hand, and was induced to try your Blood Mixture in consequence of two gentlemen in my neighbourhood having been cured of obstinate sores on the body. After taking two bottles, I became much better, and continued it up to the tenth bottle, when I found the rheumatism had left me, and my arm was healed. I consider it a most valuable medicine.
"You are at liberty to use this letter in any way you think proper, for the benefit of others. "Faithfully yours,
"To Mr. F. J. Clarke." "THOMAS WATTS."

GRIFFITHS' PATENT WHITE
OR
OXY-SULPHIDE OF ZINC PAINT,
MANUFACTURED BY
GRIFFITHS, FLETCHER, & BERDOE,
LIVERPOOL, LONDON, AND CHARLTON, (KENT).

Covers 125 per cent. more than Oxide Zinc.
Covers 100 per cent. more than White Lead.
It retains its Whiteness under all conditions.
A Red Heat will not destroy it.
Will never Blister.
Is Non-poisonous—Has no Smell.
Has no Chemical Action upon Metals.

The Patent Zinc White, or substitute for Lead, invented and patented by Mr. Thomas Griffiths, of Oxton, Liverpool, received the highest possible praise at the Meetings of "The Society of Arts and Manufactures," London, and "The Social Science Congress."

THE Manufacture of "GRIFFITHS' PATENT WHITE" formed the subject of a lecture at the Society of Arts in the Spring of 1877, and has been reported upon by the leading scientific Chemists, Paint Merchants, Decorators, &c., &c.; was brought before the International Congress of Hygiene, at Paris, in August 1878, by Professor Lutschaunig and Dr. Phipson; and in the same month before the British Association, in Dublin; in October, a paper was read upon it at the Social Science Congress in Cheltenham, by Dr. Bartlett; and it was the subject of a paper read during the session of 1878 of the Paris Academy of Science. At the Paris International Exhibition, 1878, the highest distinction which was conferred upon paints, viz.: The only Silver Medal, was awarded to it, and at the Sanitary Institute of Great Britain it obtained the Prize Medal. It has been most favourably reported on in the "Lancet," "Engineering," "Engineer," "Builder," "Architect," "Chemical News," "Sanitary Record," "Society of Arts Journal," "Scientific American," "Journal of Chemical Society," "Moniteur," "L'Exposition de Paris," "Lloyd's Official List," "New York Tribune," "New York Times," "Comptes-Rendus," of the French Academy of Science, &c., &c. Copies of any of the above reports can be had on application; also samples for trial.

So great has been the demand for it since its introduction, that the proprietors, who were producing about 25 TONS PER WEEK in Liverpool, have been compelled to purchase Extensive Works in London, where they can manufacture about 50 TONS PER WEEK. They have also had to secure sufficient room to increase the production to 200 tons weekly, making them the largest producers of White Pigment in Europe.

WHITE LEAD possesses only one good property, viz., "covering power," it is poisonous, soon loses its opacity, and turns yellow with Sewer and other Gases, and prejudicially affects Iron and other metals.

OXIDE ZINC has scarcely half the covering power of lead, but it is whiter and retains its colour.

GRIFFITHS' PATENT ZINC WHITE has all the *good* properties of both the above without any of their drawbacks, viz., it has double the body of Lead, or of Oxide Zinc, has the most brilliant whiteness, will never change colour even in sulphuretted hydrogen (which destroys lead) and does not lose its opacity by age. It is calcined at a red heat in its manufacture, hence is almost indestructible, and, of course, will stand any variation of climate. Its durability is such that it is admirably adapted for protecting Iron, Wooden or Cement Structures in any exposed situations, from the effects of the weather. Will never blister with the hottest sun.

PROFESSOR PHIPSON says: "It is one of the most ingenious and useful discoveries of modern times."

GRIFFITHS' PATENT NEW ZINC WHITE is at present used by the English, German and other Governments as well as large private firms.

Full reports from the highest scientific authorities in the kingdom, gratis, on applying to any Agents of the "Silicate Paint Company," Liverpool, London, or Charlton. The following are a few who have reported on this new pigment:—

PROFESSOR BARFF, M.A., Lecturer on Paint and Colours to Society of Arts, Chemist to Royal Academy, &c.
JOHNSON & SONS, Assayers to Bank of England, H.M. Mint, Council of India, &c.
PROFESSOR LUTSCHAUNIG, Liverpool Assay Office.
DR. PHIPSON, Fellow of Chemical Societies of London, Paris, and Antwerp; and of Royal Society of Natural Sciences, Brussels.
H. C. BARTLETT, Ph. D., F.C.S., Analytical Chemist, London.
